Solution Brief: Payroll

The Situation:

Payroll processing is a necessity, and it has become a commodity. There are a few processors commanding the vast market share and services, service-levels, pricing and quality have reached a stasis.

The Impact:

Customers have grown accustomed to price levels and service levels. Market apathy has reduced the pressure on traditional processors to innovate and improve efficiency, reducing their costs and, thereby, their prices.
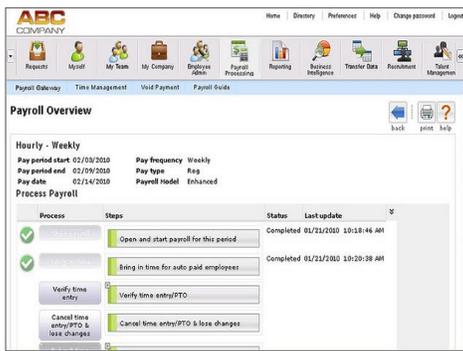

"My move from Paychex to iProcess Online saved me 15% in direct payroll costs day one."
